Discussions

1. Director & Principal stated that while the Alumni Association is doing good work, it is hampered by the fact that, it is not a registered entity. Having a registered alumni association would have many benefits, including ability to create a corpus for various welfare activities of the association. It will also help in extending the reach of alumni association.
2. Accordingly, it was decided that an AGM of the alumni association would be called on 15th August to pass a resolution to this effect.

3. Dr. Badri was entrusted with the responsibility of completing the formalities of registration.
