

## International Student Speak -

Studying at Presidency College is a rewarding experience. Teachers are quite strict and take great care in helping students with their studies. My classmates are a friendly lot and contributed to my sense of belonging even though I'm away from my own home and country.

Presidency College has all the facilities that a good educational institution should have: well-furnished and spacious classrooms, laboratories, well-stocked library, canteen serving quality food, etc. Our Principal is a strict disciplinarian when it comes to following rules of the college. He's also a loving and caring person whom we can approach with our issues.

Overall I'm very glad I chose to study in Presidency College, Bangalore.

**BCA Student**  
**Country: NIGERIA**

Presidency College is one of the best experiences I've had in my life. I made friends for life, met amazing people from around the world and most importantly, got exactly what I came for - quality education! Teachers made me work hard and I did have my ups and downs, but it has helped me really grow as a person.

I'm proud to be a Presidencian !

I originally came to know of Presidency College while I was pursuing BCA and visited during their IT Fest. I told myself, I would love to join this kind of an institution if I decided to pursue Master's in Computer Application.

I'm delighted that I did make the decision and here I am doing MCA at Presidency and loving it! Our College has all the required facilities and supportive teachers. Numerous foreign students from various countries are here and we all feel very comfortable and welcomed. College recognizes the presence of students from various nationalities and special events like International Students Fest are organized for us.

At Presidency, we learn a lot and also have lots of fun!

Presidency College is like another world for me, because my teachers help me work hard and they also take extra care of foreign national students. Rules and regulations are clearly explained and we are expected to follow the same. Rewards and recognition is given to good students while others are helped to do better. Abide by the rules and enjoy student life at Presidency !

It is not about whether you can study... it's all about whether you "want" to study.
