Invited Talk - Webinar

Program Name: Data Analytics using R

Date: 08-May-2021

Time/Duration: 1 Hour

Total Number of Participants: 100

Name of Resource Person(s)/Organization: Ms. Annie Stephen

Venue: Virtual

A technical session on **Data Analytics using R** was conducted on Saturday, **the 08th May 2021** in Virtual mode (webinar) for all the Students of VI semester BCA. **Ms. Annie Stephen from Rius Technologies Pvt Ltd., was the resource person** for the session. Presently, she is a trainer cum consultant on Data Science. A gold medallist in her post-graduation currently working on project titled "Survival Analysis of COVID-19" using R language. Also, she is expertized in Advanced Excel, SAS BASE, SAS SQL BASE and SPSS BASE. The speaker started the session by giving an overview of database and SQL for the application development. Also, the current demand in data analytics stressed much so as to give a spark in the minds of students for taking up career in the same. A sample program was demonstrated in extracting information precisely using R scripting. Statistical functions that are commonly used for data analysis were listed and briefed. There were few students who had actively participated by interacting with the speaker. Overall, the session was fruitful one.
