

## Invited Talk - Webinar

Program Name: Webinar – Hosting Web Applications

Date: 02-July-2021

Time/Duration: 1 Hour

Total Number of Participants: 86

Name of Resource Person(s)/Organization: Mr. Rahul A Shinde

Venue: Virtual

A technical session on **Hosting Web Applications** was conducted on Friday, **the 2nd July 2021** in Virtual mode (webinar) for all the Students of IV Semester BCA. **Mr. Rahul A Shinde a Devops and Full Stack Engineer currently working for a US based company, was the resource person** for the session. His key areas are automation, integrating cloud modules, NodeJS, Angular and so on. He started the session with a demonstration of web / mobile apps deployed without using Google or Apple playstore. The current trend in hosting applications that run on variety of devices called PWA (Progressive Web Application) was briefed at first. Then, he moved on to UI design frameworks, backend specifications. As he happens to be fullstack developer, so, he explained about technicalities at each layer of Application development and deployment. There were few students who had actively participated by interacting with the speaker. Overall, the session was a good learning experience for the participants.
