Webinar

Program Name: Cloud Computing

Date: 18-May-2022

Time/Duration: 1 Hr

Total Number of Participants: 110

Name of Resource Person(s)/Organization: Ms. Jincy Joy

Platform: Microsoft Teams

A webinar session on **Cloud Computing was organised through Microsoft Teams** on Tuesday, the **17th May 2022** for all the Students of IV semester BCA section. **The resource person for the session was Ms. Jincy Joy, who is presently working as Freelancer, after having working in few IT companies such as Fidelity, Capegemini, etc., since 2013. She is MCA qualified with certification programme in software engineering from IIT Madras.** Also, she has done more than half a dozen certification programmes. Her specialisation is in Cloud, IoT and Blockchain technologies. The topic chosen for the session was Cloud computing, she started explaining the benefits of cloud, followed by architecture of cloud. Then the various service and deployment models of cloud was explained in depth with the pictorial illustration. After listening to the advantages of cloud based access, students were able to visualise the real time business scenario. The session was fruitful one.
