

## Invited Talk

Program Name: Industrial IoT

Date: 11-Dec-2021

Time/Duration: 1.5 Hrs

Total Number of Participants: 150

Name of Resource Person(s)/Organization: Mr. Gowtham Sivabalan

Venue: Seminar Hall

A technical session on **Industrial Internet of Things** was conducted on Saturday, **the 11th December 2021** in Seminar Hall for all the Students of III semester BCA. **Mr. Gowtham Sivabalan was the resource person** for the session. Presently, he is working as Senior Director (Middle East and South Asia) in Frost & Sullivan. He has two and a half decades of experience in industry having served for many giants at various capacities. His core area is Industrial IoT mainly handling RFID related issues. He started the session with explanation of technology support for business. The need of trained technical manpower in industry was expressed as a concern. That was to motivate the students and insist them to be competitive and grab the opportunities.

Further, the speaker spoke about various tools and technologies required to develop IoT based products. He gave detailed explanation on the need of IoT in the industry and how the entire world is moving towards automation. Students were interactive throughout the session, the speaker was able to answer all the queries due to his vast experience and knowledge. Overall the session was fruitful one.
