Report on Invited Talk

Date: 26-June-2018

Topic: ICTs and International Development

A technical session on **ICTs and International Development** was conducted on Tuesday, **the 26th June 2018** in Seminar Hall for all the Students of V semester BCA. **Dr. Pamela Abbott was the resource person** for the session. Dr. Pamela Abbott, a senior Lecturer from **"Information School", University of Sheffield, United Kingdom** started the session with an overview of tools and gadgets that are considered as Information and communication Technologies. The objective of the session was to spread awareness amongst students,

about the potential of ICT tools in improving the standards of human lives across the globe. Furthermore, the International Development Aid Agencies such as World Bank, UNESCO, US Aid, UK Aid, European Union Funding Sources, etc., were listed. Also, their goals and strategies were explained. As most of our Students were from urban belt, so, they were unaware that in many parts of world, particularly in the developing countries where people still yet to adapt the modern methods in education system and communication as well. Two video clippings were screened to demonstrate the success stories of ICT implementation in remote villages. All the Students had learnt ICT will be powerful tool to educate people and enhance their standards of living.
