Report on Invited Talk

Date: 07-Oct-2017

Topic: Web Design

A technical session on **Web Design** was organized on Saturday, **the 07th October 2017** in the Seminar Hall for all the students of I semester BCA. **Mr. Sumit K Shankar was the resource person** for the session.

Mr. Sumit is a master degree holder in computer application and working as a Senior Software Engineer in Brady PLC. He is a Microsoft Certified Programmer in C#. He has more than seven years of experience in the field of Web Design. He works on various projects in banking, energy, education and

medical domains, concentrating on core areas like UI design, Planning and Implementation, Database Design, Deployment and Bug fixing. Also, he had associated with several Organizations such as Temenos India Pvt Ltd., i2i Telesolutions Pvt Ltd., Fidelity Investments, First American Corporation, to name a few. The speaker started the session with an introduction to website, further he moved to explaining the differences between website and web application. He narrated the uses of Technologies such as XHTML, CSS, JavaScript, which are necessary for developing Web Applications. Also, the required supporting technologies, tools, domain spaces for deployment of developed sites were demonstrated. Students were curious in knowing the server side support to facilitate the clients' requests. All those queries were answered during the session.
