

ONLINE CLASSES

Presidency College quickly adapted to the online mode of teaching, learning process during the lockdown period.

Faculty members were trained to handle classes through 'Teams' an inbuilt app in Microsoft Office 365 which is the official software used by the college for academic and administrative purposes. Students too were informed to install desktop/mobile version of Teams app/ web app, a meticulously planned time table was shared with faculty and students and a team was created for each class/ section. Separate channels were created for the conduct of technical sessions of each subject, messages about the scheduled classes were sent to each team member.

'Teams' app is highly compatible for the conduct of online classes as it enhances the process of learning with its inbuilt features such as:-

- Desktop sharing options
- Virtual white board
- Uploading notes and PPT through "Files" tab
- Recording facility
- Posting assignments and assessment
- Conversations through "Chat" tab

At Presidency College learning is a joy as we truly follow Gandhiji's Words – "Learn as if we live for ever".
