

WORLD ENVIRONMENT DAY

Presidency College maintains a green patch which comprises of a variety of plants and herbs species which are well tended to.

On the 5th of June which is the 'World Environment Day' our Principal Dr. Pradeep Kumar Shinde along with the NSS Officer of the college Mr. Pachayappan took the initiative of planting more saplings in the 'Sanjeevini Herbal Garden' thus adding on to the greenery inside the campus.

We at Presidency College pledge to nurture and nourish the flora and create a healthy and happy environment.
