Handymen's Workshop

Venue:- Presidency College

Date:- 24th August 2017

Time:-3:00 pm

Rotaract club of Presidency College successfully conducted its 16th session of the Handymen's Workshop on August 24, 2017. This time they were more excited to learn as they became familiar with the coordinators of the event. The session began with asking the handymen to recite the English Sentences which they had learnt the last time.

After that, they were taught new sentences which would be of great help to them in the college premises like, "Switch off the fan" or, "Please leave the classroom, we have to clean it" and many more. They got acquainted with the sentences quickly and began to recite it on their own. At last, a quick revision was done and the handymen were asked to recite simple and complex sentences that were taught in the previous sessions of the workshop. Everyone were individually called on the stage and were asked to recite a sentence which they had learnt and they recited the sentences without any difficulty. The handymen were grateful to the Rotaractors and a feeling of exultation was clearly visible on their face .
