

CYCLE DAY

Program Name: Cycle day

Date: 15 September 2019

Time/Duration: 6:30AM - 9:30AM

Total Number of Participants: Above 80

Venue: Anand Nagar

The second Cycle Day for the semester was held on 15 September 2019, Sunday to promote awareness on the emerging need to decrease fuel consumption and adopting healthy activities such as cycling. It started at around 6:30 AM. The Cycle Day was held in association with Anand Nagar Welfare Association. There were around above 70 participants including residents and Rotaractors in the event. The cycle day is a BCOS initiative.

We were glad to have the residents of the association in good numbers and belonging to different age groups. Members from various other Rotaract Clubs in Bangalore also joined us in good numbers. After three rounds of cycling, the participants were involved in a number of street games like lemon and spoon race, ball in the bucket.

The event was a successful one and delightful spreading awareness on the cause it was initiated for. As a club we look forward to such great events and efforts to contribute to the society.
