Cosmopolitan Genesis Hosted In A Flash 2.0 from 13th January to 25th January.**

It was an online event where the participants had to share a picture of a place they connected the most, it could be a place as simple as your balcony or your mother's lap. The participants also had to write a few lines about the place and state why that particular place is special and their work was featured on Rotaract Club of Calcutta Cosmopolitan Genesis's social media handles.

It was a great initiative where the members could showcase their photography skill and could also fill their minds with utmost pleasure by sharing a place that provides them with utmost peace and solace.
