

Program Name: Kali Kannada

Date: 12th September, 2021

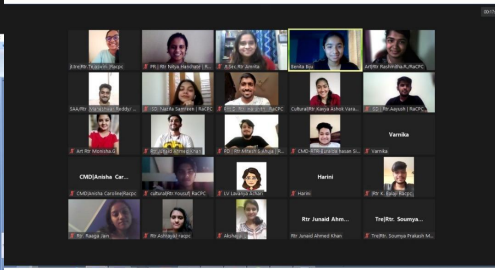

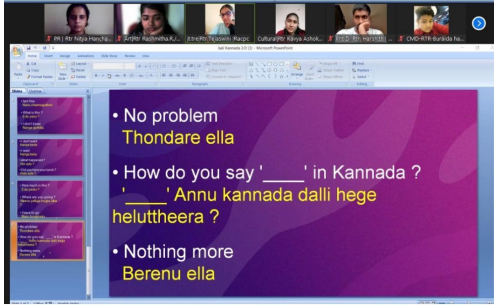

Venue: via Zoom meeting

Rotaract Club of Presidency College conducted the first session of the flagship project "Kali Kannada" on 12th September 2021.

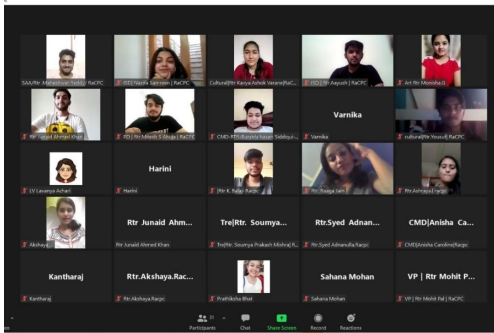

As the popular saying goes "Be a Roman in Rome", it is very important for us to be well versed in the native language of the place we reside in.

Therefore, project "Kali Kannada" is one step towards making the numerous non-kannada speakers a little more familiar with our beautiful language. Through this project the club aims to help the members who are not fluent in Kannada, by teaching them to read, speak, write and understand Kannada.

It was an interactive and informative session that helped non-kannada speakers to understand basic phrases. The session would help them communicate with the natives according to their day to day needs.
